

About Tata Power Solar

Tata Power Solar, with 27 years of deep domain expertise, is one of the pioneering solar manufacturers in the world and India's largest specialized EPC player. Founded in 1989, the company was originally formed as a joint venture between Tata Power and British Petroleum Solar (BP Solar). As a pioneer and market leader in the solar space, headquartered in Bangalore, Tata Power Solar now operates independently as a wholly owned subsidiary of Tata Power.

As one of the largest solar manufacturers in India, Tata Power Solar operates world-class manufacturing unit in Bangalore, with a production capacity of 300 MW of modules and 180 MW of cells. We have shipped more than 840 MW of our world-class modules globally till date. Our sophisticated facilities are ISO 9001 and ISO 14001 accredited from BVQI. Our products and systems have been accredited by world renowned agencies such as STQC, ETDC, CPRI, ISPR – Italy, Underwriters Laboratories (UL), Factory Mutual (FM), and many more. Black and Veatch places our modules in the premier category of bankable modules thereby enabling users and developers to strengthen their trust in our product quality.

We provide complete EPC solutions for large, commercial solar power plants of megawatt scale to residential and kW size installations as well. We provide customized solar solutions sectors ranging from education and banking to healthcare and telecommunications, along with specialized solutions for BIPV, hybrid systems, railways, defense and offshore platforms. Having completed more than 320 MW of ground-mount utility scale and 117 MW of rooftop and distributed generation projects across the country till date, we are the industry leaders in rooftop installations.

We offer a diverse line of solar solutions for both urban and rural markets – these include Dynamo range of rooftop solutions and Saawan solar water pumps among others.

We are committed to enabling solar everywhere and bringing the power of the sun to people in the most efficient and cost effective way possible. It is our attempt to provide clean energy to millions of Indians, and aid the country's endeavors to achieve energy security, and to participate in the fight against global warming. Our shared value business approach has seen us sign strategic alliances with government departments, renewable energy development agencies, NGOs and Grameen Banks to make energy accessible to those in energy deficient areas. As part of the country's Jawaharlal Nehru National Solar Mission (JNNSM), Tata Power Solar has taken the lead to contribute to a strong and sustainable thrust for solar power in India.

About our Parent Company: Tata Power

Tata Power had its inception in 1915, establishing India's first large hydro-electric project in Khopoli, Maharashtra and driven by its late founder, Shri Jamshetji N. Tata's pioneering vision.

Tata Power is India's largest integrated power company with a growing international presence. The Company together with its subsidiaries and jointly controlled entities has an installed gross generation capacity of 9184 MW and a presence in all the segments of the power sector viz. Fuel Security and Logistics, Generation (thermal, hydro, solar and wind), Transmission, Distribution and Trading.

It has successful public-private partnerships in Generation, Transmission and Distribution in India namely "Tata Power Delhi Distribution Limited" with Delhi Vidyut Board for distribution in North Delhi, 'Powerlinks Transmission Ltd.' with Power Grid Corporation of India Ltd. for evacuation of Power from Tala hydro plant in Bhutan to Delhi and 'Maithon Power Ltd.' with Damodar Valley Corporation for a 1050 MW Mega Power Project at Jharkhand.

Tata Power is serving more than 2.6 million distribution consumers in India and has developed the country's first 4000 MW Ultra Mega Power Project at Mundra (Gujarat) based on super-critical technology. It is also one of the largest renewable energy players in India with a clean energy portfolio of 1749 MW.

Its international presence includes strategic investments in Indonesia through a 30% stake in the leading coal company PT Kaltim Prima Coal (KPC), 26% stake in mines at PT Baramulti Suksessarana Tbk ("BSSR"); in Singapore through Trust Energy Resources to securitize coal supply and the shipping of coal for its thermal power generation operations; in South Africa through a joint venture called 'Cennergi' to develop projects in sub-Saharan Africa; in Zambia through 50:50 joint venture with ZESCO for 120 MW Hydro which has become operational in 2016; in Georgia through AGL which is a joint venture with Clean Energy, Norway & IFC for development of 185 MW hydro project which is scheduled to be commissioned in 2016; in Australia through investments in enhanced geothermal and clean coal technologies and in Bhutan through a hydro project in partnership with The Royal Government of Bhutan.

With its track record of technology leadership, project execution excellence, world class safety processes, customer care and driving green initiatives, Tata Power is poised for a multi-fold growth and committed to 'lighting up lives' for generations to come".
