HYERABAD, NOV 3: Tata Power Solar has won 'Dun & Bradstreet - Everest Infra Awards 2017' under Infrastructure Project category for commissioning India's largest solar project under Domestic Content Requirement for NTPC at Anantapur in Andhra Pradesh.

The 100-MW project is expected to generate nearly 160 million units (kWh) of energy per year and help offset approximately 110,000 tonnes of CO₂ in the first year.

Spread over 500-acre site and using high quality TIER-1 module and cells manufactured in-house, the project was delivered within 80 per cent of the stipulated timeline and three months ahead of the stringent schedule.

Dun & Bradstreet – Everest Industries Limited Infra Awards 2017, into its 7th edition, felicitates India's leading infrastructure companies and projects across various categories. The nominations are judged on various financial and qualitative parameters and an array of pre-defined project execution criteria by an independent jury. Shri Nitin Gadkari, Honourable Union Minister of Road Transport Highways & Shipping and Water Resources, River Development, & Ganga Rejuvenation, Government of India graced the award ceremony as the Chief Guest.

Speaking at the session, Mr. Ashish Khanna, ED & CEO, Tata Power Solar, said "It is a moment of great pride for us to receive this award. This award is testimony of our excellence in domestic manufacturing and EPC services. The 100 MW plant is the largest DCR project commissioned by us till date and its execution ahead of schedule, as well as performance, demonstrates our commitment towards high quality manufacturing and project execution capabilities."
