Tata Power Solar Leads in EPC Rooftop Business for Four Years in a Row

Published On Mon, Jul 17th, 2017

Tata Power Solar installed nearly 140 MW of solar rooftop projects and 605 MW of utility scale projects within the year.

Tata Power Solar, India's largest integrated solar player, has been ranked #1 EPC rooftop solar player in the recently published India Solar Rooftop report 2017 by BRIDGE TO INDIA, a leading cleantech consulting and knowledge services provider. According to the report, the total installed capacity in the rooftop segment is 1,396 MW as of 31st March 2017 including commercial, residential & industrial sector. Tata Power Solar leads the EPC market of 678 MW with a market size of over double than the closest competitor.

Tata Power Solar Is The No.1 EPC Rooftop Player For Four Years In A Row, Says Bridge To India Report

BY NISARG SUTHAR · JULY 17, 2017

Tata Power Solar, India's largest integrated solar player, has said that it has been ranked #1 EPC rooftop solar player in the recently published India Solar Rooftop report 2017 by BRIDGE TO INDIA, a leading cleantech consulting and knowledge services provider.

According to the report, the total installed capacity in the rooftop segment is 1,396 MW as of 31st March 2017 including commercial, residential & industrial sector. Tata Power Solar leads the EPC market of 678 MW with a market size of over double than the closest competitor.

Commenting on the report findings, Vinay Rustagi, Managing Director, BRIDGE TO INDIA, said, *"It is very encouraging to see rapid growth in the Indian rooftop solar market, which is benefitting from falling costs and growing customer awareness. We expect rooftop solar to grow from about 1.4 GW today to 13.2 GW by 2021 contributing about 22% of total solar capacity in the country. The industry remains highly competitive but Tata Solar Power has been able to maintain its leadership position in the EPC business due to its strong branding and nationwide presence across the value chain."*

Tata Power Solar installed nearly 140 MW of solar rooftop projects and 605 MW of utility scale projects in total. Some prominent projects commissioned were India's first solar carport of 2.7MW at Cochin International Airport and India's largest vertical solar farm at Dell International Services building.
