SolarPV.TV presents its exclusive talk to **Ashish Khanna**, CEO & Executive Director at **Tata Power Solar Systems** who shared with us his & his company history in solar business & most importantly Tata Power's strategy in order to become one of the cleantech global industry leaders.

According to Ashish, we will experience an enormous solar growth in India, however the most important will be quality & sustainability of this growth.

We would like to thank Renewable Energy India (REI 2016) & NSEFI – the National Solar Energy Federation of India for their help in organizing this exciting discussion.
