BNRG, TATA SOLAR'S LARGEST INTERNATIONAL CLIENT

NEWS BRIEF / MAY

Irish solar company BNRG Renewables' has announced that, in partnership with the UK-based agribusiness, the Langmead Group, it completed construction in March of 20 MW of solar projects. With project funding from HSBC, the company intends to hold the four 5MW projects located in West Sussex and Wales.

Around 78,000 solar PV panels were required for the projects, which were supplied by Tata Power Solar, India's largest integrated solar player. Through these projects BNRG has become Tata Power Solar's largest international client in 2015, by providing nearly 20 MW of panels to BNRG.
