TPS completes 25 years in RE space

Tata Power Solar (TPS) announced the completion of 25 years in the global renewable energy space.

The company has touched the lives of over 30 million people and reduced the carbon footprint by more than 6.2 million tons as of 2014.

Ajay Goel, CEO, Tata Power Solar said, "Our 25 year journey is a testimony to the path-breaking work done in transforming lives of communities across the country. We hope to help countless customers adopt cleaner and efficient means of energy adoption, as well as mobilise communities with insufficient access to energy."
