Tata Power Solar's 3 MW roof-top projects

[Leave your comment](#)

Tata Power Solar has successfully commissioned 62 sites in Gujarat which includes a 1.2 MW plant for Gujarat Energy Development Agency (GEDA), a 750 kW plant for Surat Municipal Corporation (SMC) and 1.1 MW of projects across various smaller industries. The 1.2 MW solar power project at GEDA was executed at 34 different sites and is expected to generate 1.8 million units of energy. The 750 kW project for SMC which spreads over 14 sites was commissioned in three months with 100 per cent compliance to local regulatory norms.
