Tata Power Solar wins ₹1,200-cr order to set up 320 MW project

PRESS TRUST OF INDIA
New Delhi, January 23

TATA POWER SOLAR on Saturday announced that it has bagged an order worth ₹1,200 crore from state-run power giant NTPC for setting up of 320 MW ground mounted solar project.

Tata Power Solar, India's largest integrated solar company and a wholly-owned subsidiary of Tata Power, has received a "Letter of Award (LoA)" to build 320 MW of ground mounted Solar PV project for NTPC, a company statement said.

The order value of the project is approximately ₹1,200 crore (\$162 million). The commercial

The order pipeline of Tata Power Solar stands at approximately 4 GWp

operation date for this project is set for May 2022.

With this addition, the order pipeline of Tata Power Solar stands at approximately 4 GWp with approximate value of ₹12,000 crore. The scope of work includes the land, acquisition, engineering, procurement,

installation, and commissioning of the grid-connected solar project on a turnkey basis along with three years of operations and maintenance services for the solar plant, power evacuation system and telemetry up to the interconnecting state transmission utility (STU) substation.

Speaking on the achievement, Praveer Sinha, CEO and MD, Tata Power, said in the statement, "Tata Power is in the forefront of producing green energy across the country. Such achievement demonstrates the trust and leadership of Tata Power's project management capability and execution skills in solar projects."

Tata Power Solar Systems Ltd has announced that the state has prepared an order from giant NTPC Ltd for Rs 1,200 crore to install a 320 million megawatt solar power project.

Tata Power Solar, India's largest solar power producer, and Tata Power Co. received a "Letter of Commendation" for the construction of a 320 MW ground-mounted Solar PV project for Tata Power Solar NTPC, which is a 100 percent subsidiary of the company.

The order value of the project is about Rs 1,200 crore (\$ 162 million). The commercial operation date of this project is set for May 2022.

In addition, Tata Power Solar's order pipeline is approximately 4 GW and has an estimated cost of \$ 12,000.

The scope of work includes three years of operation and maintenance of the site to the power evacuation system and telemetry, as well as the design of the power supply project, the purchase of land, engineering, acquisition, installation and commissioning. Includes. interconnecting state transmitting auxiliary substation.

"Tata Power is a leader in green energy production across the country. This achievement demonstrates Tata Power's confidence and leadership in project management and solar engineering projects," said

Tata Power Solar on Saturday announced that it has bagged an order worth Rs 1,200 crore from state-run power giant NTPC for setting up of 320 MW ground mounted solar project.

Tata Power Solar, India's largest integrated solar company and a wholly-owned subsidiary of Tata Power, has received a "Letter of Award (LoA)" to build 320 MW of ground mounted Solar PV project for NTPC, a company statement said.

The order value of the project is approximately Rs 1,200 crore (USD 162 million). The commercial operation date for this project is set for May 2022.

With this addition, the order pipeline of Tata Power Solar stands at approximately 4 GWp with approximate value of Rs 12,000 crore.

The scope of work includes the land, acquisition, engineering, procurement, installation, and commissioning of the grid-connected solar project on a turnkey basis along with three years of operations and maintenance services for the solar plant, power evacuation system and telemetry up to the interconnecting state transmission utility (STU) substation.

Speaking on the achievement, Praveer Sinha, CEO and MD, Tata Power, said in the statement, Tata Power is in the forefront of producing green energy across the country. Such achievement demonstrates the trust and leadership of Tata Power's project management capability and execution skills in solar projects."

Tata Power Solar comes with a successful background of executing large projects such as the 150 MW Ayana at Ananthapur, 50 MW Kasargod at Kerala, 56 MW Greenko, 30 MWp solar power plant in Lapanga, Odisha, 105 MWp of floating solar project at Kayamkulam (under implementation). It has also won an auction conducted by Gujarat for 400 MW of projects to be built at
