Tata Power Solar receives letter of award to build GSECL's Rs 460-cr project

New Delhi, Jan 28 (PTI) Tata Power Solar has received a letter of award (LoA) to build 95 megawatt (MW) of solar photovoltaic project worth about Rs 460 crore for Gujarat State Electricity Corporation Ltd (GSECL).

"Tata Power Solar, India's largest integrated solar company and a wholly-owned subsidiary of Tata Power, has received a letter of award (LoA) to build 95 MW of ground-mounted solar PV project for GSECL," according to a statement.

The project's order value is about Rs 460 crore (USD 63 million). The commercial operation date for this project is set for April 2022.

With this addition, the order pipeline of Tata Power Solar Systems Ltd (TPSSL) stands at about 4.2 gigawatt peak (GWp) with a value of about Rs 12,500 crore, thereby cementing its position as India's leading solar EPC player for seventh year in a row among utility scale.

The company specialises in providing comprehensive EPC (engineering procurement and construction) solutions and also manufactures high-efficiency PV modules.

Tata Power CEO and MD Praveer Sinha in the statement said, "We are glad to announce this new win of large grid-based solar EPC contract from GSECL, a leading public sector undertaking.. These orders are a motivation for us to continue focusing on delivering the best to our customers and live up to their expectations."

Over the years, TPSSL has been India's leading solar rooftop EPC player. PTI KKS HRS hrs

Tata Power Solar has received a Letter of Award (LoA) to build 95 MW of ground mounted Solar PV project for GSECL. The order value of the project is approximately INR 460 crores (\$61 Million). The Commercial operation date for this project is set for April 2022. With this addition, the order pipeline of Tata Power Solar Systems Ltd. (TPSSL) stands at approximately 4.2 GWp with an approximate value of INR 12,500 crores, thereby cementing its position as India's leading Solar EPC player for seventh year in a row among utility scale.

The company specializes in providing comprehensive EPC solutions and also manufactures high efficiency PV modules. Today, TPSSL is known for its project and operational excellence. It has a strong trained workforce which ensures timely completion of projects from concept to commissioning including its operation and maintenance for the complete lifespan of the plant.

Tata Power Solar deploys world-class technology to design, install and commission benchmark solar projects worldwide. The company has offered a range of indigenous solar rooftop EPC solutions to its customers which has helped them to transform their businesses into a sustainable and environmentally responsible organization, enabling them to reduce their energy costs through the installation of cost-effective renewable technologies.

Speaking on the achievement, Praveer Sinha, CEO & MD, Tata Power said, "We are glad to announce this new win of large grid-based solar EPC contract from GSECL, a leading public sector undertaking. We have been progressively growing our portfolio to be the partner of choice for grid-scale solar projects. These orders are a motivation for us to continue focusing on delivering the best to our customers and live up to their expectations."

Over the years, TPSSL has been India's leading solar rooftop EPC player with compelling economics; especially for the commercial and industrial segment, favourable government policies, and increased environmental awareness have been the key growth drivers. With a total portfolio of 421 MW (as on 31st March 2020), Tata Power Solar has successfully implemented large projects such as the 150 MW Ayana at Anantapur, 50 MW Kasargod at Kerala, 50MW Greenko, 30MWp Solar Power Plant in Lapanga, Odisha, 105MWp of Floating solar at Kayamkulam (under implementation). It has also won an auction conducted by Gujarat for 400 MW of projects to be built at Dhule Solar Park.
