## TPREL commissions 100 MW solar project

New Delhi, Aug 13 (PTI) Tata Power Renewable Energy Ltd has commissioned a 100 MW solar project at Raghnesda Solar Park, Gujarat.

The installation will reduce 2,00,000 tonnes of carbon emission every year. Raghnesda Solar Park, located in the Banaskantha district of Gujarat, is one of the biggest solar parks in the country, a statement said. Tata Power Renewable Energy Ltd (TPREL), a wholly-owned subsidiary of Tata Power, has successfully commissioned the 100 MW Solar Power project at Raghnesda Solar Park, Gujarat, it added.

This project is another landmark for TPREL, as in the first year of its operation, the plant is expected to generate 255 million units, the statement noted. The project was awarded by Gujarat Urja Vikas Nigam Ltd (GUVNL). With this addition of 100 MW, the total installed capacity of TPREL will be 2,797 MW with 1,865 MW of solar and 932 MW of wind. It has 1,234 MW of renewable projects under implementation. Tata Power CEO and MD Praveer Sinha said, "We are proud to announce that TPREL has commissioned the 100MW project at one of the biggest solar parks in the country in Gujarat. We are steadfast in our conviction towards promoting the realisation of clean and green energy in the country through solar power generation". Despite various challenges faced on account of COVID-19 by the industry, TPREL through Tata Power's EPC arm Tata Power Solar Systems Limited has completed the project within the timelines due to its excellent project execution experience and capabilities. **National, India, August 13, 2021:** Tata Power Renewable Energy Limited (TPREL), a wholly owned subsidiary of Tata Power has successfully commissioned 100 MW Solar Power project at Raghnesda Solar Park, Gujarat. This project is another landmark for TPREL, as in the first year of its operation, the 100MW plant is expected to generate 255 million units. The installation will reduce 200,000 tonnes of carbon emission every year. Raghnesda Solar Park, located in the Banaskantha district of Gujarat, is one of the biggest solar parks in the country.

This project was awarded by Gujarat Urja Vikas Nigam Ltd (GUVNL). With this addition of 100 MW, the total installed capacity of TPREL will be 2,797 MW with 1,865 MW of Solar and 932 MW of wind. It has another 1,234 MW of renewable projects under implementation.

Speaking on the achievement, **Dr. Praveer Sinha, CEO&MD, Tata Power** said, "We are proud to announce that TPREL has commissioned the 100MW project at one of the biggest solar parks in the country in Gujarat. We are steadfast in our conviction towards promoting the realisation of clean and green energy in the country through solar power generation."

Despite various challenges faced on account of Covid 19 by the industry, TPREL through Tata Power's EPC arm Tata Power Solar Systems Limited has successfully completed the project within the project timelines due to its excellent project execution experience & capabilities.

### About Tata Power:

Tata Power is India's largest integrated power company and, together with its subsidiaries and jointly controlled entities, has an installed/managed capacity of 12,811 MW. A pioneer in the field, it has a presence across the entire power value chain – generation of renewable as well as conventional power including hydro and thermal energy, transmission & distribution, coal & freight, logistics and trading. The company had developed the country's first Ultra Mega Power Project at Mundra (Gujarat) based on super-critical technology. With almost 4 GW of clean energy generation from solar, wind, hydro and waste heat recovery accounting for 31% of the overall portfolio the company is a leader in clean energy generation. It has successful public-private partnerships in generation, transmission & distribution in India viz: Powerlinks Transmission Ltd, with Power Grid Corporation of India Ltd. for evacuation of Power from Tata Hydro plant in Bhutan

## TPREL successfully commissions 100 MW Solar PV Project at Raghnesda Solar Park, Gujarat –

August 13, 2021

**TPREL efficiently commissions 100 MW Photo voltaic PV Challenge at Raghnesda Photo voltaic Park, Gujarat.**

Tata Energy Renewable Vitality Restricted (TPREL), an entirely owned subsidiary of Tata Energy has efficiently commissioned 100 MW Photo voltaic Energy challenge at Raghnesda Photo voltaic Park, Gujarat. This challenge is one other landmark for TPREL, as within the first yr of its operation, the 100MW plant is predicted to generate 255 million models. The set up will scale back 200,000 tonnes of carbon emission yearly. Raghnesda Photo voltaic Park, situated within the Banaskantha district of Gujarat, is likely one of the largest photo voltaic parks within the nation.

This challenge was awarded by Gujarat Urja Vikas Nigam Ltd (GUVNL). With this addition of 100 MW, the whole put in capability of TPREL might be 2,797 MW with 1,865 MW of Photo voltaic and 932 MW of wind. It has one other 1,234 MW of renewable tasks below implementation.

Talking on the achievement, **Dr. Praveer Sinha, CEO&MD, Tata Energy** stated, "We're proud to announce that TPREL has commissioned the 100MW challenge at one of many largest photo voltaic parks within the nation in Gujarat. We're steadfast in our conviction in the direction of selling the realisation of fresh and inexperienced vitality within the nation by means of solar energy technology."

Regardless of numerous challenges confronted on account of Covid 19 by the trade

## Tata Power Renewable Energy commissions 100 MW solar project in Gujarat

📅 August 13, 2021   👤 URALLNEWS   💬 0 Comments

Tata Power Renewable Energy Ltd has commissioned a 100 MW solar project at Raghnesda Solar Park, Gujarat. The set up will scale back 2,00,000 tonnes of carbon emission yearly. Raghnesda Solar Park, situated in the Banaskantha district of Gujarat, is likely one of the largest solar parks in the nation, an announcement stated.

Tata Power Renewable Energy Ltd (TPREL), a wholly-owned subsidiary of Tata Power, has efficiently commissioned the 100 MW Solar Power project at Raghnesda Solar Park, Gujarat, it added.

This project is one other landmark for TPREL, as in the primary yr of its operation, the plant is predicted to generate 255 million items, the assertion famous.

The project was awarded by Gujarat Urja Vikas Nigam Ltd (GUVNL). With this addition of 100 MW, the entire put in capability of TPREL will likely be 2,797 MW with 1,865 MW of solar and 932 MW of wind. It has 1,234 MW of renewable tasks beneath implementation.

Tata Power CEO and MD Praveer Sinha stated, "We are proud to announce that TPREL has commissioned the 100MW project at one of the biggest solar parks in the country in Gujarat. We are steadfast in our conviction towards promoting the realisation of clean and green energy in the country through solar power generation".

Despite varied challenges confronted on account of COVID-19 by the trade, TPREL by Tata Power's EPC arm Tata Power Solar Systems Limited has accomplished the project inside the timelines because of its wonderful project execution expertise and capabilities. PTI KKS BAL BAL

In a release issued today, Tata Power announced its arm Tata Power Renewable Energy Ltd (TPREL) has commissioned a 100 MW PV project at Raghaneada Solar Park in the Indian State of Gujarat. This project is expected to generate 255 million units of electricity in the first year of its operation, helping to offset 200,000 tonnes of carbon emission every year.

Raghaneada Solar Park, located in the Banaskantha district of Gujarat, is one of the biggest solar parks in the country.

TPREL was awarded the project by Gujarat Urja Vikas Nigam Ltd (GUVNL). With this addition of 100 MW, the total installed capacity of TPREL has reached 2,797 MW, including 1,865 MW
