## Tata Power Solar bags ₹596-cr order

### OUR BUREAU

New Delhi, September 14

Tata Power Solar Systems (TPSSL) on Wednesday said it has received a letter of award (LoA) for setting up a 125-megawatt peak (MWp) floating solar project from state-run NHDC at a cost of ₹596-crore.

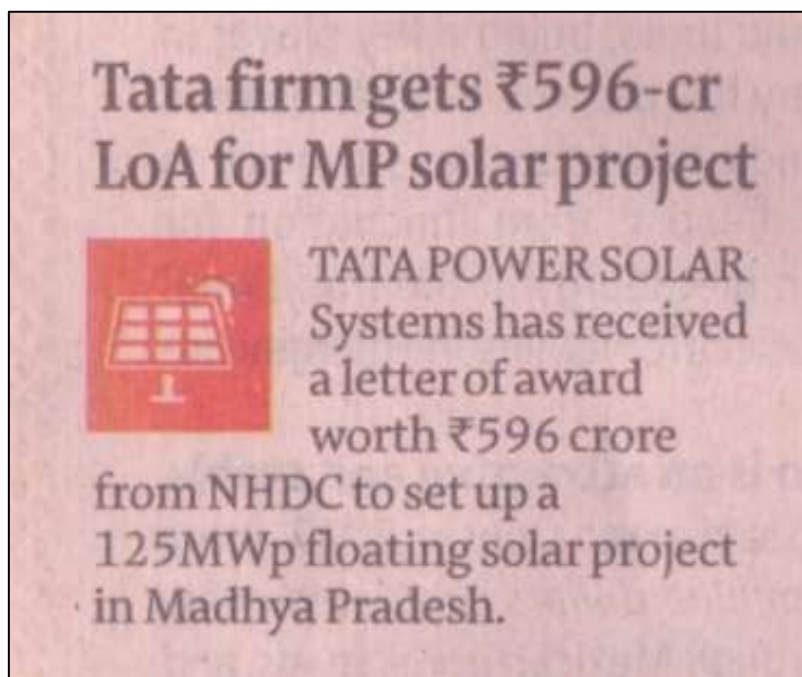

TPSSL, a subsidiary of Tata Power Renewable Energy (TPREL), is a solar engineering procurement and construction (EPC) company.

NHDC had invited tariff-based competitive bids early this year for the project at Omkareshwar reservoir in Khandwa district of Madhya Pradesh. It will be one of India's largest floating solar power projects, according to a company statement.

The project will be commissioned within 13 months from the LoA and provide sustainable power to MP Power Management Company, it added.

TPSSL's utility-scale solar project portfolio now stands at 9.8 gigawatt peak (GWp) and order book at ₹14,908 crore.
