**SECURED FROM SECI IN DEC 2021**

# Tata Installs Largest Solar & Battery Project

Worth ₹945 cr, Chhattisgarh project is estimated to generate 243 m units a yr, cut carbon footprint of 4.87 mt in 25 yrs

**Our Bureau**

**Mumbai:** Tata Power Solar Systems Limited (TPSSL), a subsidiary of Tata Power Renewable Energy Ltd, has completed India's largest solar and battery energy storage system (BESS) project at Rajnandgaon in Chhattisgarh. It comprises a 100 MW solar photovoltaic PV project and a 120 MWh utility scale BESS. TPSSL secured the ₹945 crore project from Solar Energy Corporation of India (SECI) in December 2021, handling engineering, construction and commissioning of the projects. The project is expected to generate an estimated 243.53 million units of energy annually and reduce the carbon footprint of 4.87 million tonnes in 25 years, contributing significantly to India's renewable energy goals, the company said. The project was completed on time despite challenges such as unsuitable soil conditions and remote location, it said. Bifacial mono crystalline technology was employed for 239,685 modules.

**Green Goal**

Tata Power Solar Systems completes solar & battery energy storage system (BESS) project in Chhattisgarh

**Comprises 100 MW solar photovoltaic PV project & 120 MWh utility scale BESS**

**Secured ₹945 cr project from SECI in Dec 2021**

**Project to reduce carbon footprint of 4.87 mt in 25 years**

**This (project) will ensure round-the-clock green energy and accelerate the renewable energy transition through innovative solutions"**

**DEEPESH NANDA, CEO, Tata Power Renewable Energy**

round-the-clock green energy and accelerate the renewable energy transition through innovative solutions," said Deepesh Nanda, CEO, Tata Power Renewable Energy Limited. TPSSL's solar engineering, procurement and construction portfolio includes more than 12.8 GWp (gigawatt peak) of ground-mount utility-scale and 2 GW of rooftop and distributed ground-mounted systems and 100,000 solar water pumps. The company has been a key player in promoting solar rooftop installations in the country, particularly in the commercial and industrial segments. Tata Power's scrip ended 4.13% down at ₹396 on the BSE on Tuesday. Benchmark Sensex ended 0.22% higher.

## Tata Solar commissions 100MW solar project

**PTI ■ NEW DELHI**

Tata Power Solar Systems (TPSSL) on Tuesday said it has commissioned 100 MW solar PV project, coupled with 120 MWh utility scale battery energy storage systems (BESS), at Rajnandgaon in Chhattisgarh.

TPSSL bagged the Rs 945-crore project on EPC (engineering procurement construction) basis from the Solar Energy Corporation of India Ltd (SECI) in December 2021, a statement said.

The order scope included engineering, design, supply, construction, erection, testing, O&M, and commissioning of the projects.

According to the statement, TPSSL, a fully integrated solar company in India and a wholly owned subsidiary of Tata Power Renewable Energy Ltd (TPREL), has successfully commissioned the country's largest solar and BESS project comprising 100 MW Solar PV Project coupled with 120 MWh Utility Scale Battery Energy Storage System (BESS), at Rajnandgaon in Chhattisgarh.

The TPSSL team displayed exceptional project execution and engineering prowess during the project execution, which faced various challenges such as unsuitable full hard rock soil conditions, and remote location.

In spite of these, the project was completed in the stipulated timeframe. The cutting-edge Bifacial Mono Crystalline technology was used for 239,685 modules in the project.

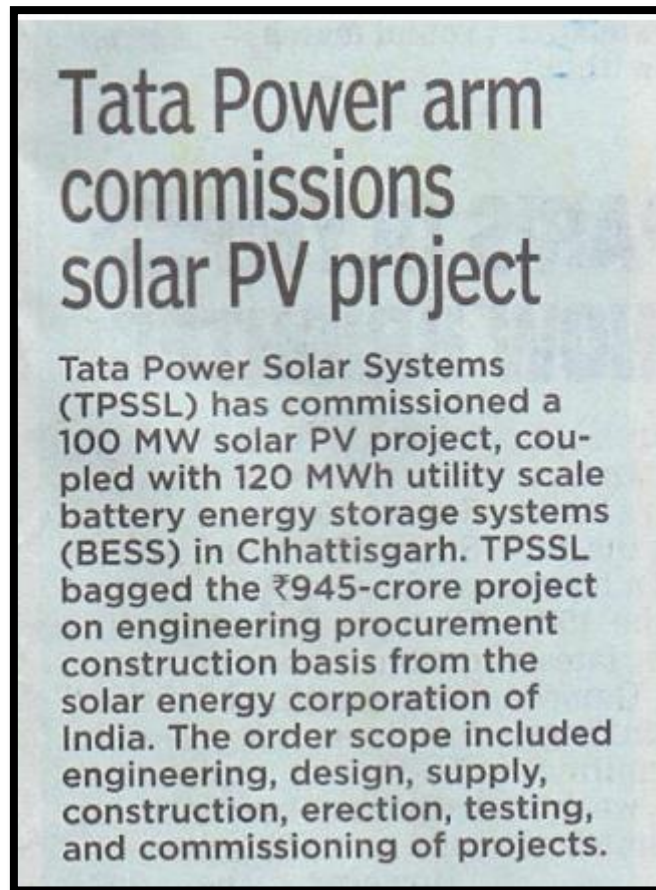

The successful commissioning of the largest solar and battery storage project for SECI, reflects the technical expertise and project execution skills of Tata Power Solar. This will ensure round-the-clock green energy and accelerate the renewable energy transition through innovative solutions," TPREL CEO and Managing Director Deepesh Nanda said in the statement.

The project is expected to generate an estimated 243.53 million units of energy annually and reduce carbon footprint by 4.87 million tonnes in 25 years, contributing significantly to India's renewable energy goals.

SECI Chairman & MD R P Gupta said in the statement, "We are committed to leverage latest technology in the renewable energy segment and this project supports the country's energy transition vision. The project has been delivered on time by Tata Power Solar that will help in providing 24x7 renewable power."

## टाटा पावर सोलर सिस्टम्स ने बैटरी भंडारण के साथ सौर परियोजना परियोजना चालू की

नयी दिल्ली: 12 मार्च (भाषा) टाटा पावर सोलर सिस्टम्स ने छत्तीसगढ़ के राजनांदगांव में बैटरी ऊर्जा भंडारण प्रणाली (बीईएसएस) के साथ 100 मेगावाट क्षमता की सौर परियोजना शुरू की है। बैटरी ऊर्जा भंडारण प्रणाली की क्षमता 120 मेगावाट (एमडब्ल्यूएच) है।

एक बयान में कहा गया कि टाटा पावर सोलर सिस्टम्स (टीपीएसएसएल) को दिसंबर, 2021 में सोलर एनर्जी कॉर्पोरेशन ऑफ इंडिया लि. (सेकी) से ईपीसी (इंजीनियरिंग खरीद निर्माण) आधार पर 945 करोड़ रुपये की परियोजना मिली थी।

### Tata Power's step-down subsidiary commissions battery energy storage project in Chhattisgarh

Tata Power Company said that Tata Power Solar Systems has successfully commissioned the country's largest solar and battery energy storage systems (BESS) project at Rajnandgaon in Chhattisgarh. (12 Mar 2024, 13:10)

The power storage system comprises of a 100 MW solar PV project coupled with 120 MWh utility scale Battery Energy Storage System (BESS).

Tata Power Solar Systems is a wholly owned subsidiary of Tata Power Renewable Energy, which is a subsidiary of the Tata Power Company.

Tata Power Solar Systems had bagged this Rs 945 crore project on engineering, procurement and construction (EPC) basis from the Solar Energy Corporation of India (SECI) in December 2021. The order scope included engineering, design, supply, construction, erection, testing, O&M and commissioning of the projects.

The project would generate an estimated estimated 243.53 million units of energy annually and reduce carbon footprint of 4.87 million tonnes of carbon-di-oxide in 25 years. The project had deployed bifacial mono crystalline technology for the 2,39,685 modules that were used therein.

Deepesh Nanda, CEO and managing director, Tata Power Renewable Energy, said: "The successful commissioning of the largest solar and battery storage project for SECI, reflects the technical expertise and project execution skills of Tata Power Solar. This will ensure round-the-clock green energy and accelerate the renewable energy transition through innovative solutions."

44	Asian List	<a href="#">Tata Power unit switches on India's largest solar-BESS project</a>	March 12, 2024

## Tata Power unit switches on India's large solar-BESS project

The project is worth around \$114m.

Tata Power Solar Systems started the operations of a 100-megawatt (MW) solar photovoltaic project coupled with a 120 MW-hour utility-scale battery energy storage system (BESS), the largest of its kind in India.

In a statement, Tata Power said the project is expected to generate around 243.53 million units of energy annually and cut a carbon footprint of 4.87 million tonnes in 25 years.

The company secured the \$114m (INR945 crore) project from the Solar Energy Corporation of India (SECI) in December 2021 on an engineering, procurement and construction basis.

**ALSO READ:** [Tata Power to develop 10 GW renewable projects in Gujarat](#)

"We are committed to leverage latest technology in the renewable energy segment and this project supports the country's energy transition vision. The project has been delivered on time by Tata Power Solar that will help in providing 24x7 renewable power," said Shri R. P. Gupta, IAS, Chairman & MD, SECI.
