TP Saurya commissions a 200 MW solar project in Rajasthan

April 3, 2024

TP Saurya Limited, a subsidiary of Tata Power Renewable Energy Limited, has declared the effective initiation of a 200 MW solar project. Situated in Bikaner, Rajasthan, the project caters to Tata Power Trading Company Limited. Anticipated to produce a noteworthy 485 million units of electricity each year, the initiative is in harmony with the company's goal to significantly enhance India's renewable energy capacity. Additionally, the project will be integrated into the central transmission utility grid, facilitating the effective dissemination of green power throughout the area.

Apart from its substantial energy generation, the project is set to have a notable effect on environmental sustainability, with an anticipated annual reduction of 388,000 tonnes in carbon emissions. Furthermore, the endeavor encompassed the setup of around 523,365 modules.

Tata Power Renewable Energy Commissions 200 MW Solar Project in Bikaner

By [siliconindia](#) | Tuesday, 02 April 2024, 09:42:54 AM IST

Tata Power Renewable Energy Ltd (TPREL) has successfully commissioned a significant 200 MW solar project in Bikaner, Rajasthan, marking another milestone in India's renewable energy sector. This initiative is poised to contribute substantially to the country's sustainable energy goals. The project, spearheaded by **TPREL's subsidiary, TP Saurya Ltd (TPSL)**, and commissioned for **Tata Power Trading Company Ltd (TPTCL)**, is strategically located in Bikaner, Rajasthan.

Expected to generate approximately 485 million units of green energy annually, this solar project is anticipated to offset over 3,88,000 tonnes of carbon emissions each year. Moreover, its integration into the Central Transmission Utility (CTU) Bus promises efficient distribution of clean energy across the region, bolstering the overall renewable energy infrastructure.

TPREL unit starts up 200-MW solar farm in Rajasthan

TP Saurya Limited, a unit of Indian renewables player Tata Power Renewable Energy Limited (TPREL), has commissioned a 200-MW solar farm in the Bikaner area in the state of Rajasthan, the parent company announced on Monday.

The project was commissioned for Tata Power Trading Company Limited.

TP Saurya assembled the solar farm using around 523,300 of modules, and expects the plant to be able to generate 485 million units of energy annually, TPREL said.

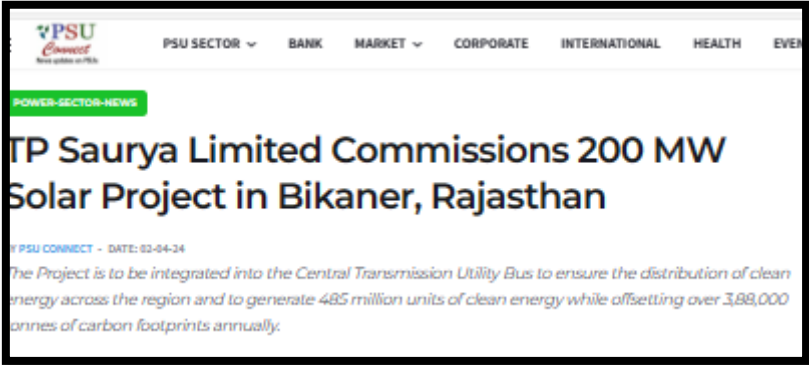

With the latest project online, TPREL's total installed renewables capacity reached 9,018 MW. This includes 4,547 MW of projects under various stages of implementation and 4,471 MW in operation - 3,444 MW of solar and 1,027 MW of wind, the company added.

TP Saurya commissions 200 MW solar project in Rajasthan

Tuesday, 02 Apr 2024

TP Saurya (TPSL), a subsidiary of Tata Power Renewable Energy (TPREL), has commissioned a 200 MW solar project located in Bikaner, Rajasthan, for Tata Power Trading Company, a subsidiary of The Tata Power Company.

Expected to generate an 485 million units of energy annually, the project aligns with the company's mission to contribute to the country's renewable energy capacity. Furthermore, the project will be seamlessly integrated into the central transmission utility (CTU) Bus for efficient distribution of clean energy across the region.

The endeavour marks a significant milestone in the renewable energy landscape, highlighting TPREL's unwavering commitment to sustainable energy solutions. The project was completed within the designated timeline, showcasing the team's project execution and engineering expertise. The initiative will result in an estimated annual decrease of 3,88,000 tonne carbon footprint.

Also, the project involved the installation of approx. 5,23,365 modules. With the addition, the total renewables capacity of TPREL has reached 9,018 MW (PPA capacity is 7,632 MW) including 4,547 MW projects in stages of implementation and its operational capacity is 4,471 MW, comprising 3,444 MW solar and 1,027 MW wind.

Bikaner, Apr 2 (KNN) Tata Power Renewable Energy Ltd (TPREL), a leading renewable energy company in India, has commissioned a 200 MW solar power plant in Bikaner, Rajasthan on Monday.

This new solar project is expected to generate around 485 million units of green energy annually, offsetting over 388,000 tonnes of carbon dioxide emissions, reported ET.

The 200 MW solar plant was developed by TP Saurya Ltd, a subsidiary of TPREL, for Tata Power Trading Company Ltd (TPTCL).

The clean energy generated will be integrated into the Central Transmission Utility (CTU) grid, ensuring efficient distribution across the region.

With this new addition, TPREL's total renewable energy capacity has reached an impressive 9,018 MW, including 4,547 MW of projects under implementation.

The company's operational renewable capacity now stands at 4,471 MW, comprising 3,444 MW of solar and 1,027 MW of wind power projects.

TPREL unit powers up 200-MW solar farm in Rajasthan

Apr 2, 2024 03:42 PM ET

- TP Saurya Limited shines bright with the successful commissioning of a 200-MW solar farm in Bikaner, Rajasthan, adding to Tata Power Renewable Energy Limited's impressive renewables portfolio.

TP Saurya Limited, a unit of Tata Power Renewable Energy Limited, has successfully commissioned a 200-MW solar farm in Bikaner, Rajasthan. The project was completed for Tata Power Trading Company Limited and is expected to generate 485 million units of energy annually. The solar farm was built using around 523,300 modules and adds to TPREL's total installed renewables capacity of 9,018 MW, including both operational and under-construction projects.

TP Saurya, a subsidiary of [Tata Power](#) Renewable Energy (TPREL), has commissioned a 200MW solar project in Bikaner, in the Indian state of Rajasthan.

The solar project is equipped with 523,365 solar modules and will generate 485 million units of energy annually, to be supplied to the Tata Power Trading Company.

This project will be integrated into the Central Transmission Utility Bus, ensuring improved distribution of clean energy throughout the region.

Despite facing extreme weather conditions including sandstorms, and geopolitical challenges, the project has been completed on time.

It will contribute to environmental sustainability by reducing annual carbon emissions by an estimated 388,000 tonnes.

In a major boost for clean energy in India, Tata Power Renewable Energy Ltd through its subsidiary TP Saurya Ltd has announced the operational status of a colossal 200 MW solar power plant situated in the Bikaner district of Rajasthan. This strategic step not only amplifies the renewable energy capabilities of the area but is also a milestone for the clean energy sector, fortifying the commitment to sustainable development. Joining forces with the central transmission utility bus, the facility will play a pivotal role in dispersing renewable energy across the region.

Tata Power's TP Saurya unveils 200 MW solar project

The project will generate power for Tata Power Trading Company.

Tata Power Renewable Energy Limited subsidiary TP Saurya commissioned its 200-megawatt (MW) solar project in Bikaner, Rajasthan.

In a statement, Tata Power said the project is expected to generate 485 million units of energy annually for Tata Power Trading Company.

The project with over 523,000 modules installed is estimated to cut 388,000 tonnes of carbon footprint a year.
