STATESMAN NEWS SERVICE  
MUMBAI, 3 JULY

Tata Power Renewable Energy Limited (TPREL), a subsidiary of Tata Power, issued a press release on Thursday stating that it commissioned 752 MW of renewable Solar projects in Q1 FY26.

The company made a record quarterly addition, which is up by 112 per cent from 354 MW in Q1 FY25, the statement said.

The statement informed that with the Q1 FY26 commissioning, its total utility-scale operational capacity now stands at 5.6 GW, including 4.6 GW solar power and 1 GW wind power.

The company plans to commission 1.7 GW of its utility-owned capacity during FY26, apart from 1 GW of third-party projects, according to

the statement.

Tata Power stated that it aims to reach 7.3 GW of total operational capacity by the end of FY26, including 5.6 GW of solar and 1.7 GW of wind. The company attributed its latest achievement to cost-optimised execution backed by a robust supply chain, agile project delivery and strong vendor partnerships.

Tata Power recently brought 5,035 MW of new capacity online, raising its total to 10,257

MW—which is the second highest among listed companies.

The company brought the highest new capacity with an over 5 GW addition, taking its total capacity to 10.2 GW.

TPREL is a developer of renewable energy projects (including solar, wind, hybrid, round-the-clock, peak, floating solar and storage systems including battery storage) which it owns, operates as well as maintains.

### टाटा पावर रिन्यूएबल्स ने 752 मेगावाट की सौर परियोजनाएं चालू कीं

मुंबई, 3 जुलाई (एजेंसियां)। भारत अक्षय ऊर्जा क्षेत्र की प्रमुख कंपनियों में से टाटा पावर रिन्यूएबल एनर्जी लिमिटेड ने वित्त वर्ष 2025-26 की पहली तिमाही में कुल 752 मेगावाट की अक्षय सौर परियोजनाएँ चालू की हैं। टाटा पावर कंपनी लिमिटेड (टाटा पावर) ने गुरुवार को जारी एक विज्ञप्ति में कहा कि उसकी अनुषंगी कंपनी टाटा पावर रिन्यूएबल एनर्जी का यह एक नया तिमाही रिकार्ड है और एक साल पहले इसी तिमाही में शुरू की गयी 354 मेगावाट की परियोजनाओं की तुलना में 112 प्रतिशत की वृद्धि दर्शाता है।

### रिन्यूएबल्स ने जून तिमाही में रिकॉर्ड 752 मेगावाट की सौर परियोजनाएं शुरू की

नई दिल्ली, 3 जुलाई। टाटा पावर रिन्यूएबल्स ने बृहस्पतिवार को कहा कि उसने चालू वित्त वर्ष (2025-26) की अप्रैल-जून तिमाही में रिकॉर्ड 752 मेगावाट सौर परियोजनाएं शुरू की हैं। इसके बाद कंपनी की कुल उपयोगिता-पैमाने की परिचालन क्षमता 5.6 गीगावाट हो गई है। कंपनी ने एक बयान में कहा कि टाटा पावर की अनुषंगी कंपनी टाटा पावर रिन्यूएबल्स ने पिछले वित्त वर्ष (2024-25) की समान अवधि में कुल 354 मेगावाट सौर क्षमता शुरू की थी।

टाटा पावर रिन्यूएबल्स ने चुनौतीपूर्ण परिस्थितियों के बीच परियोजनाओं के समय पर निष्पादन के लिए उन्नत इंजीनियरिंग प्रक्रियाओं, आपूर्ति शृंखला, निष्पादन मॉडल और मजबूत विक्रेता साझेदारी जैसे कारकों को इसका श्रेय दिया। कंपनी ने कहा कि चालू वित्त वर्ष की जून तिमाही में परियोजना निष्पादन के लिए उसकी कुल उपयोगिता-पैमाने की परिचालन क्षमता अब 5.6 गीगावाट है, जिसमें 4.6 गीगावाट सौर और एक गीगावाट पवन ऊर्जा क्षमता शामिल है। कंपनी ने चालू वित्त वर्ष के दौरान 1.7 गीगावाट की अपनी उपयोगिता स्वामित्व वाली क्षमता के अलावा एक गीगावाट की तृतीय-पक्ष परियोजनाओं के निष्पादन की योजना बनाई है।

MUMBAI, JULY 4/--/Tata Power Renewable Energy Limited, one of India's largest renewable energy company and a subsidiary of The Tata Power Company Limited (Tata Power), has commissioned 752 MW of renewable Solar projects in Q1 FY26 - a record quarterly addition, up 112% from 354 MW in Q1 FY25.

The Company's EPC project installations are a testament to seamless execution, disciplined project management, and a strong commitment to quality and safety.

Leveraging advanced engineering practices, the Company has consistently delivered projects, even in challenging environments. The robust supply chain, agile execution model, and strong vendor partnerships, allows the Company to execute projects while optimizing costs.

With the Q1 FY26 commissioning, the Company's total utility-scale operational capacity now stands at 5.6 GW, including 4.6 GW solar and 1 GW wind. It further plans to commission 1.7 GW of its utility owned capacity during FY26 apart from 1 GW of third-party projects.

Tata Power targets 7.3 GW of total operational capacity by FY26-end, with solar capacity at 5.6 GW and wind capacity at 1.7 GW.

The Company's renewable energy installations not only contribute to India's clean energy capacity but also reflect its strategic role in supporting national energy security and sustainability goals.

Tata Power Renewables commissions record 752 MW of solar projects in Q1 FY26

Dated: Jul 03, 2025, 01:38:00 PM IST

Synopsis

Tata Power Renewables has significantly boosted its operational capacity by commissioning a record 752 MW of solar projects in Q1 FY26, a substantial increase from the 354 MW commissioned in the same period last year. This expansion brings their total utility-scale operational capacity to 5.6 GW, with plans to add another 1.7 GW of utility-owned capacity during FY26.

NEWS UPDATE

New Delhi, Jul 3 (PTI) Tata Power Renewables on Thursday said it has commissioned a record 752 megawatt (MW) of solar projects in April-June 2025-26, following which its total utility-scale operational capacity stood at 5.6 GW.

Tata Power Renewables, a subsidiary of Tata Power, had commissioned a total of 354 MW solar capacity in the same period of preceding 2024-25 financial year, the company said in a statement.

For the timely execution of projects amid challenging environments, Tata Power Renewables attributed factors like advanced engineering practices, supply chain, execution model, and strong vendor partnerships.

With the Q1 FY26 commissioning, the company said its total utility-scale operational capacity now stands at 5.6 GW, including 4.6 GW solar and 1 GW wind capacity.

The company further plans to commission 1.7 GW of its utility owned capacity during FY26

Tata Power Renewables Sets New Record with 752 MW Solar Projects in Early FY26

In an impressive feat, Tata Power Renewables commissioned a record 752 MW of solar projects in Q1 FY26, boosting its utility-scale operational capacity to 5.6 GW. This reflects a notable increase from the previous year, thanks to innovative engineering, a solid supply chain, and robust vendor collaborations.

Tata Power Renewable Energy Limited (TPREL), a subsidiary of The Tata Power Company Limited, has set a new benchmark by commissioning 752 MW of solar projects in Q1 FY26, more than doubling its achievement from the same quarter last year. This marks a 112% increase from the 354 MW commissioned in Q1 FY25 — the company's highest-ever quarterly addition in the renewable energy segment.

With this addition, TPREL's total utility-scale operational capacity now stands at 5.6 GW, comprising 4.6 GW of solar and 1 GW of wind power. For the full fiscal year FY26, TPREL plans to commission an additional 1.7 GW of utility-owned capacity and 1 GW of third-party projects, aiming to reach a total operational capacity of 7.3 GW by the end of the year.

Tata Power Commissions 752 MW Solar Boosts India's Green Shift

Tata Power Renewable Energy Limited (TPREL), a prominent subsidiary of Tata Power, has announced the commissioning of a substantial 752 megawatts of solar projects during the first quarter of fiscal year 2026. This significant achievement underscores India's accelerating transition towards a cleaner energy landscape, directly contributing to the nation's vision for zero net carbon, eco-friendly, and sustainable urban centres. Such strategic investments are vital for fostering a healthier environment and ensuring equitable access to power for all citizens.

NEW DELHI, July 3: Tata Power Renewables on Thursday said it has commissioned a record 752 megawatt (MW) of solar projects in April-June 2025-26, following which its total utility-scale operational capacity stood at 5.6 GW.

Tata Power Renewables, a subsidiary of Tata Power, had commissioned a total of 354 MW solar capacity in the same period of preceding 2024-25 financial year, the company said in a statement.

For the timely execution of projects amid challenging environments, Tata Power Renewables attributed factors like advanced engineering practices, supply chain, execution model, and strong vendor partnerships.

With the Q1 FY26 commissioning, the company said its total utility-scale operational capacity now stands at 5.6 GW, including 4.6 GW solar and 1 GW wind capacity.

The company further plans to commission 1.7 GW of its utility owned capacity during FY26 apart from 1 GW of third-party projects.

### Tata Power’s Big Solar Push: 752 MW Added in Just 3 Months

Tata Power Renewables has set a new record by adding 752 MW of solar capacity in Q1 FY26—more than double last year’s figure—pushing its total to 5.6 GW.

 By **Manish Kumar** — ON JUL 3, 2025

TECHNEWS

In a strong step toward clean energy, **Tata Power Renewable Energy Ltd** has added **752 megawatts (MW)** of solar power in just the first quarter of FY26—a record-breaking achievement for the company. That’s more than double what it added during the same period last year.

This addition means Tata Power’s total utility-scale renewable capacity now stands at **5.6 gigawatts (GW)**, with **4.6 GW from solar** and **1 GW from wind**. The company aims to raise this figure even further to **7.3 GW by the end of the financial year**, as part of its plan to support India’s growing demand for cleaner, greener power.

Behind this growth is a mix of solid planning, skilled project execution, and strong partnerships. Even in difficult working conditions, the company has delivered on time and on budget—without cutting corners on safety or quality.

टाटा पावर रिन्यूएबल्स ने पहली तिमाही में रिकॉर्ड 752 मेगावाट की सौर परियोजनाएं चालू कीं

मुंबई, 03 जुलाई (वार्ता) भारत अक्षय ऊर्जा क्षेत्र की प्रमुख कंपनियों में से टाटा पावर रिन्यूएबल एनर्जी लिमिटेड ने वित्त वर्ष 2025-26 की पहली तिमाही में कुल 752 मेगावाट की अक्षय सौर परियोजनाएं चालू की हैं।

टाटा पावर कंपनी लिमिटेड (टाटा पावर) ने गुरुवार को जारी एक विज्ञप्ति में कहा कि उसकी अनुषंगी कंपनी टाटा पावर रिन्यूएबल एनर्जी का यह एक नया तिमाही रिकार्ड है और एक साल पहले इसी तिमाही में शुरू की गयी 354 मेगावाट की परियोजनाओं की तुलना में 112 प्रतिशत की वृद्धि दर्शाता है।
